Defining Problem Statement and Analysing basic metrics:

Netflix is one of the most popular media and video streaming platforms. They have over 8000 movies or tv shows available on their platform, as of mid-2021, they have over 200M Subscribers globally.

The particular business case focuses on the Netflix show data and provides insightful information on 8807 shows

Analyzing the data and generating insights helps Netflix decide which type of shows/movies to produce and how to grow the business.

```
df = pd.read_csv('https://d2beiqkhq929f0.cloudfront.net/public_assets/assets/000/000/940/original/netflix.csv')
```

```

**Insights based on Non-Graphical and Visual Analysis: **

Comments on the range of attributes 1. Based on the given data, we observe that there are wide variety of Genres present nowadays which give many content to users.

2. The platform helps the user to display the most watched shows.

Comment on Univariate and Bivariate Analysis:

1. The release of movies on OTT platform like Netflix have significantly increased over years, there were downfall during 2020-2022, the factors could be external like covid.

2. For the duration that the movies people like to watch movies duration between 90 to 100 minutes time interval and for tv shows people has high performance for shows having 1 or 2 seasons.

**A few major Business Insights: **

```
sns.countplot(data=df4,x='type')
plt.show()
```

Insight: The graph shows that the demands of movie is higher than the TV Shows

#movies

```
sns.countplot(data=df_final_movies,x='list_of_genre')
plt.xticks(rotation=90)
plt.show()
```

#genre

```
sns.countplot(data=df_final_series,x='list_of_genre')
```

```
plt.xticks(rotation=90)
plt.show()
```

Insights: The most watched genre for TV shows and Movies are, Dramas, International TV shows, International movies.

Top 5 Genres for TV Shows and Movies

```
#top5genre
#movies
top_5_data_Genres=df_final_movies.loc[(df_final_movies["list_of_genre"].isin(top5_genre))]
sns.countplot(data=top_5_data_Genres,x="list_of_genre",color="y")
plt.xticks(rotation=90)
plt.legend(["movies"])
plt.show()

#series
top_5_data_Genres=df_final_series.loc[(df_final_series["list_of_genre"].isin(top5_genre1))]
sns.countplot(data=top_5_data_Genres,x="list_of_genre",color="y")
plt.xticks(rotation=90)
plt.legend(["shows"])
plt.show()
```

Insights : From the above graph we can conclude that the Dramas, International Movies, Comedies are genre from Movies which are more popular among the Netflix users and among TV shows we have international TV shows, TV dramas, crime Tv shows in the most popular demand.

  Text(4, 0, 'South Korea')]]

```

The top5 genre for movies watched in the different countries are : drama, comedy action and that in series are International shows.

Recommendations and actionable Insights:

1. The preference is given more towards comedy and drama movies netflix can enhance the business into the same genre by prioritizing the creation and promotion of content
2. Collaborating with renowned directors such as Youssef Chahine, Martin Scorsese, and Cathy Garcia for movies, and Houda Benyamina, Thomas Astruc, and Noam Murro for TV shows, could further enhance the quality and diversity of Netflix's content.
3. To optimize content consumption, Netflix should focus on the duration of movies within the range of 90-110 minutes and limit TV show seasons to 1-2, aligning with observed preferences for shorter durations.
4. Netflix should focus on sourcing and promoting, content from countries such as the United States, the United Kingdom, Japan, and India, recognizing their significance as key markets with consistent viewing preferences.
5. They could enhance the delivery of content in the peak months like that in January, July, and October, capitalizing on observed trends in user engagement during these periods.
6. Considering the success factors of similar platforms like Hotstar,jiocinema, Netflix should also analyze the content strategies of competitors to identify regional focuses and tailor its content offerings accordingly for better growth and market penetration, in India, where cutomers still look forward to the regional content.
7. Netflix should consider prioritizing the production of more movie content over TV shows based on the observation that, over the past 25 years, movie ratings have remained consistently level.
